

LOAD SECUREMENT TRAINING

A TRAINING SESSION WITH OLSEN CHAIN & CABLE

AT OLSEN CHAIN & CABLE, we believe that having the right information ultimately protects you and your people. That's why Olsen provides training to our customers, colleagues, and partners. The resources and expertise we provide keep you moving forward. **We can help ensure that the equipment you use and the standards you keep are what's best for everyone.**

Join us as our friends at **PEERLESS CHAIN** will walk us through the DoT standards for cargo securement as well as an overview of equipment options for various hauling scenarios. We'll cover all of the industry standards and requirements for Cargo Control, basically an overview of what is outlined in the Federal Motor Carrier Safety Administration (FMCSA) Handbook for drivers. This includes information about Direct and Indirect Tie Downs, Securement Systems, Calculations, Inspection Criteria, etc.

SESSIONS: Jun 9th (8-10 am, 10:30-12:30 am, 1:00-3:00 pm),

Jun 10th (8-10 am, 10:30-12:30 am, 1:00-3:00 pm)

LOCATION: Olsen Chain & Cable, Edina, MN

TOPIC: Cargo Securement Safety, & Equipment Training

PRESENTER: Peerless Technical Rep, Bob Kozickie

*The same training will be offered at all sessions **This is NOT a certification course.
